Projects

IPL Ball-by-Ball Data Analysis Dashboard

Oct '25 – Nov '25

- Analysed IPL ball-by-ball match data to identify team, player, batting, bowling, and match performance trends.
- Cleaned, transformed, and structured raw datasets to improve data quality and prepare them for analysis.
- Developed an interactive Power BI dashboard to visualize runs, wickets, matches, player performance, and team statistics.
- Implemented slicers, filters, drill-downs, and interactive visuals for analysis across seasons, teams, players, and matches.
- Created calculated measures, KPIs, and performance metrics using DAX to generate meaningful cricket insights.
- Designed comparative visualizations to evaluate player consistency, team performance, scoring patterns, and match outcomes.
- Presented complex cricket datasets through an intuitive dashboard, enabling faster interpretation and data-driven decision-making.

Tech: Power BI, DAX, Data Cleaning, Data Transformation, Data Visualization

IPL Statistical Analysis Using Python

Oct '25 – Nov '25

- Performed exploratory data analysis on IPL ball-by-ball data using Python to uncover batting, bowling, team, and match performance trends.
- Cleaned, processed, and transformed raw IPL datasets using Pandas and NumPy for accurate and efficient analysis.
- Evaluated player and team performance using statistical measures, aggregations, and comparative analysis.
- Created box plots to analyse score distributions, player consistency, performance variations, and potential statistical outliers.
- Used histograms, bar charts, scatter plots, and other visualizations to identify patterns, relationships, and trends within the dataset.
- Compared player and team statistics to generate data-driven insights into scoring, wickets, consistency, and overall performance.

• **Tech:** Python, Pandas, NumPy, Matplotlib, Seaborn

Certifications

Programming in C++ | Infosys

Jul 2025

Data Base Management System | Infosys

Jun 2026

Technical Skills

Languages: C++, Java, C, JavaScript, Python Libraries

Technologies/Frameworks: React JS, Node JS, Git, GitHub, Ubuntu

Skills: Data Structures and Algorithms, Problem-Solving, Responsive Web Design, Scripting in Python and JavaScript

Education

Lovely Professional University Punjab

2024 – 2028

Computer Science and Engineering — CGPA: 6.80

Phagwara, Punjab

Atal Adarsh Vidyalaya

2022 – 2023

12th with Science — Percentage: 68%

Lodhi Estate, New Delhi

Bal Niketan Public School

2020 – 2021

10th with Science — CGPA: 62%

Sangam Vihar, New Delhi
